

Government's Plans For Developing Regionalisation Strategy To Be Discussed Over Lunch

4th May 2010

Parliamentary Secretary to Minister for Employment and Economic Development, Jan Jarratt MP, will be the guest speaker at the upcoming Regional Economic Development Corporation (REDC) networking luncheon.

Ms Jarratt will provide attendees with an update on the State Government's plan to develop a regionalisation strategy and provide information about how local residents and business people can be involved in the process.

REDC CEO Narelle Pearse, said that the luncheon is a suitable platform for this information to be given to industry leaders and residents of the Mackay Whitsunday Isaac region.

"At the recent Growth Management Summit held in Brisbane, the Premier Anna Bligh announced a focus on regionalisation and committed to developing a Qld Regionalisation Strategy by the end of this year."

"Through having this information presented at our luncheon, the audience will have the opportunity to provide input to Government."

The luncheon will be held on Friday 14th May 2010 at Ocean International. To register for the luncheon, please visit www.mwredc.org.au or contact REDC reception on 4953 2655.
